

## Fonts

### Roboto Serif

Commercial, Greg Gazdowicz

I have checked x height, weight [Optical size, Italic and depth] and upon clear inspection and reviewing I felt this could be good in headings Primary Typeface.

### Noto Sans

Open source

Following above rules and body filter should be legit and not boring. Neutral tone.

Multiple glyphs various languages

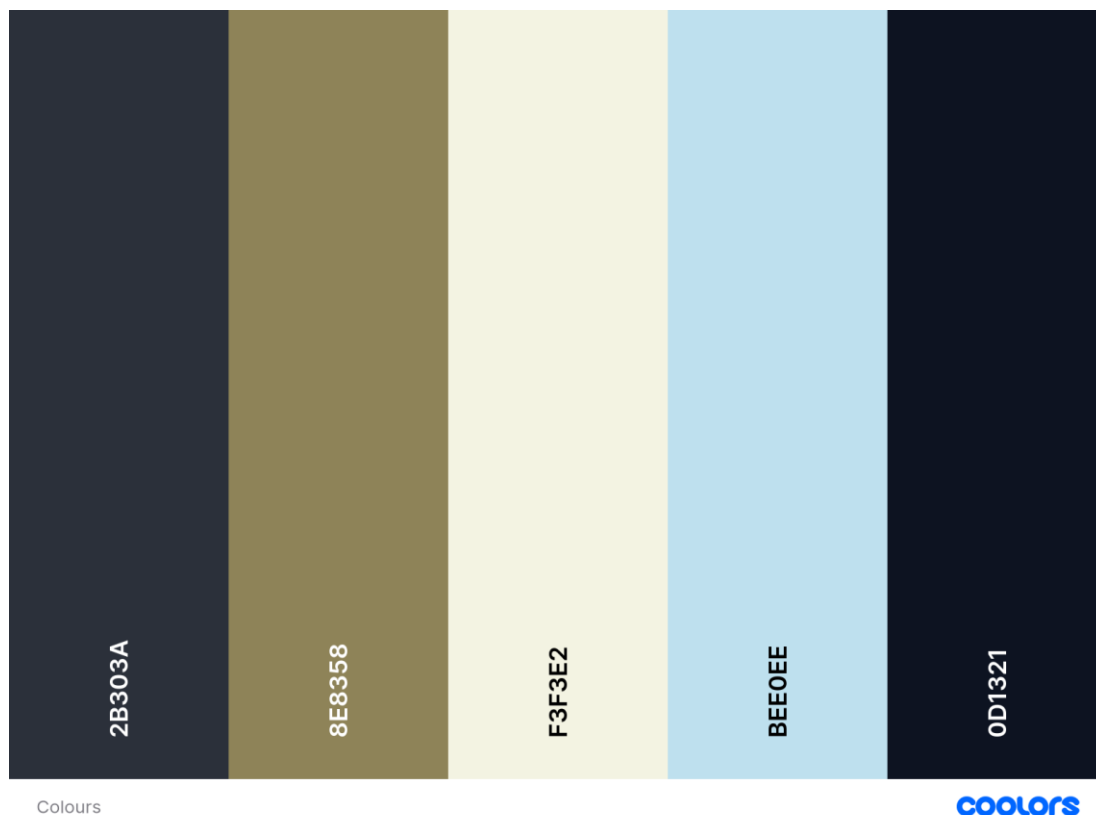

Easy and accessible to physically challenged people

Can be translated.

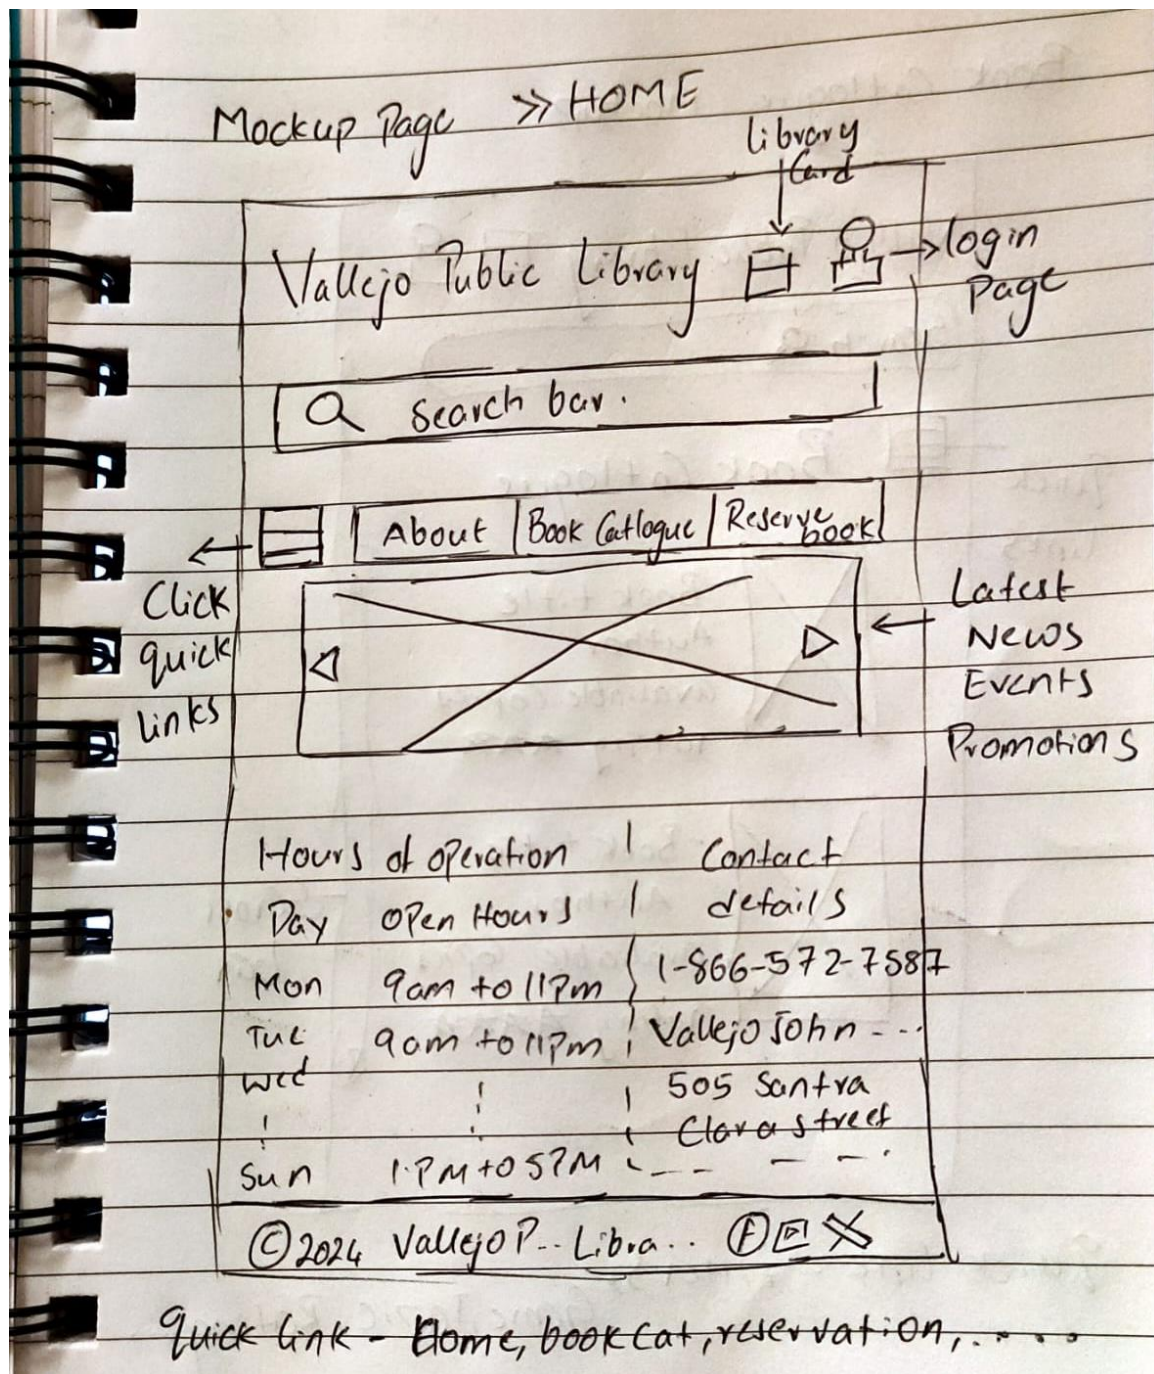

## Color Template

1. #2B303A Gun Metal - Chosen for titles to provide a professional, neutral look that makes headings noticeable without being too bold.
2. #8E8358 Moss Green - Used for subtexts and headers to introduce calm and balance, offering a soft contrast that enhances readability.
3. #F3F3E2 Ivory - The primary backdrop color, selected for its warmth and lightness, creating an inviting space that's easy on the eyes.
4. #BEE0EE Columbia Blue - Applied to secondary text and icons to subtly highlight important elements without dominating the page.
5. #0D1321 Rich Black - Used in the footer for its strong presence, ensuring that essential information is clear and distinct.

These colors help balance aesthetics and functionality, making the content accessible and engaging.
